

INITIATION

DESCRIPTION

TO WASTE MANAGEMENT

Check the flash drive for digital resources (videos, PowerPoint, PDF, etc.)

Objective

Take the time to explain the educational kit to the students and provide them with the basic concepts of waste management.

- PowerPoint presentation introducing waste management
- Distribution of the Theria & Larinie activity books

Materials in the binder

- Waste management glossary
- Flash drive: "Introduction to waste management" tab

Materials in the kit

- Theria & Larinie activity books
- Book: "Theria & Larinie's Incredible Summer: Investigation of Residual Materials Management"

Procedure

Step 1: Prepare

- Browse the waste management glossary to become familiar with the terms
- Browse the "2- Introduction to waste management" tab on the flashdrive
- Become familiar with the contents of the PowerPoint presentation in order to be able to present it to the students
- Prepare the necessary number of Theria & Larinie activity books, if needed, photocopy the PDF version available on the flash drive under the "Introduction to waste management" tab

Step 2: PowerPoint presentation

- Present to the students the PowerPoint introducing waste management

Step 3: Activity books

- Hand out the activity books, set time aside in class to do the activities or assign it as homework.
